3.11	Channel Point Commands	13
3.12	Chat Commands	14
3.13	Game Commands	16
3.14	Subscriber Commands	17
3.15	VIP Commands	17
3.16	Mod Commands	18

WHY DOES PHAT HAVE DOCUMENTATION?

Well, I am a Software Developer and wanted to make sure all the things people can do to the stream are accessible to everyone to see what they can do! Plus I am also lazy and wanted an easy way to update when I add new things.

WHERE CAN I WATCH THE STREAMS?

That would be over on Twitch at <https://twitch.tv/Phat32>

You can also join the [Discord](#) for the latest in whats happening and random memes

Last but not least, how about following on [Twitter](#) or [Instagram](#)?

IDEAS OR SUGGESTIONS?

I am always open to making the stream better and adding new things to it! Feel free to let me know either view DM in [Discord](#) or shoot me an [Email](#)

3.1 Who is Phat32?

Hi! I am Phat32, or by just Tom. Feel free to call me Phat32, Phat or Tom! Any of them is totally fine by me!

I am Canadian out in BC, a Husband, a Software Developer, and a Partnered streamer on Twitch. During the day I work a day job and write code, but in the evening or days off I will be streaming! I have a particular love for [Star Citizen](#) which my Wife has also gotten into (*squeee*) but am what you would call a Variety Streamer. I like to change it up and try new and indie games.

If you have any questions, feel free to join the [Discord](#), follow me on [Twitter](#) or [Instagram](#), or join the streams happening over on [Twitch](#)

3.2 Seriously, Why All of This?

As with most Streamers, I have added many different ways for the viewers to interact more directly with the stream while it is happening. Part of that is a bunch of commands that are changed here and there or new ones added for the lulz.

Just wanted a nice easy place where that can all be seen

3.3 OBS Setup

A list of the tools and plugins that are used to do all the stuff the stream does. This does require OBS Studio, OBS.Live and SLOBS are not compatible with most of the tools used.

3.3.1 Tools

Lioranboard Used to do scene changes and effects that happen on stream. This also enabled the Channel Point interactions to happen automatically

3.3.2 Plugins

Advanced Scene Switcher As the name states, will automatically change scene based on different conditions

Closed Captioning via Google Speech Recognition Provides live Closed Captions to the stream. They are added using Twitches built in CC so it is not forced in the stream and does not require a Twitch Extension

Freeze Filter Adds the ability to live freeze a source for different effects

Move Transition Adds the ability to both move sources but also change values for another filter for gradual changes

OBS Websockets Adds Websockets that other tools can link into. Required for Liboardboard to function

Replay Source Adds the ability to replay a specific source instead of the whole scene for clean replays

StreamFX Adds many filters to sources to allow many effects

3.4 Channel Points

3.4.1 What do they do?

Using channel points you can do the typical things like “Hydrate” and what not, but there are other channel points that affect the stream directly.

Any Channel Points used in stream will get you half as many points spent in Phatcoin

3.4.2 How do Channel Rewards affect the stream?

Using the tool **Lioranboard** I can create complex sequences of commands that can be activated using Channel Points

3.4.3 List of Channel Point Rewards

Name Generator Pick a name for me to use later when needing to name a character

Cost: 100 points

Hydrate Remind me to take a drink of water

Cost: 200 points

Posture Check Fix my posture and remind me to sit up

Cost: 5,000 points

Ad Time Start an add automatically

Cost: 6,000 points

End The Stream Automatically end the stream! 20 seconds after using the stream will be offline!

Cost: 100,000 points

3.5 Phatcoin

3.5.1 What is Phatcoin?

Phatcoin is the channel crypto currency we use around here. It is run using Streamlab, integrated into Stream Avatars and can be mined in a couple ways

3.5.2 What is Phatcoin used for?

Chat Commands Some chat commands have a Phatcoin cost tied to them

Stream Avatars You can use your Phatcoin to change your Avatar in Stream Avatars or get different accessories for them

Giveaways Phatcoin is used for getting tickets when running a giveaway on stream

3.5.3 How do I get Phatcoin?

Watching PhatBot will hand out random amounts of PhatCoin to everyone watching, we will also randomly give out PhatCoin to the viewers

Following When you follow, you automatically get 100 Phatcoin

Channel Points When you redeem Channel Points you get half the amount spent back in Phatcoin

Host When hosting you get a **500 Phatcoin** and the viewers will get 100 Phatcoin

Raid When you said you get **1000 Phatcoin** and the viewers will get 100 Phatcoin

Subscribing When you subscribe, you get different amounts of Phatcoin

- Tier 1: **1000 Phatcoin** for the subscriber, 100 for viewers
- Tier 2: **2000 Phatcoin** for the subscriber, 200 for viewers
- Tier 3: **7000 Phatcoin** for the subscriber, 700 for viewers

Gift Subs When gifting a sub to another viewer, you get the amount of Phatcoin for that Tier + **1000 Phatcoin**

Bits When you cheer the channel, you get that amount added as Phatcoin

3.6 Sound Alerts

3.6.1 What is Sound Alerts?

Sound Alerts are sound effects you can trigger to play in the stream either with Channel Points or Bits, there are a different selection of sound effects between the 2 types.

3.6.2 List of Alerts by Channel Points

There are 6 sounds you can play in stream (it is supposed to be 5 but it bugged out and I have 6... Shhhhh.). All Sound Alerts trigger at 300 Channel Points with a 10 second cooldown.

HA GOT EMM Plays the sound “HA! GOT EMMM”

*Cost: 300 Points**

A few moments later Plays the sound “A few moments later”

*Cost: 300 Points**

Bruh Plays the sound “BRUH”

*Cost: 300 Points**

Owen Wilson WOW Plays a sound of Owen Wilson saying “Wow”

*Cost: 300 Points**

At this moment he knew Plays the sound “It was at this moment that he knew. He fucked up.”

*Cost: 300 Points**

3.6.3 List of Alerts by Bits

OOF Play a sound effect “OOF”

Cost: 10 bits

Baby Yoda Play a little song singing “Baby Yoda! Baby Baby Yoda!”

Cost: 50 bits

Please God No Play a sound effect “Please God No. No. No. NOOOOOOOOOOOOOOOOOOOOOOOOO.”

Cost: 50 bits

Hey Kappa Play a sound effect “Hey Kappa Kappa Hey Kapapa Kappa Hey”

Cost: 50 bits

BOOM HEADSHOT Play a sound effect “BOOM HEADSHOT”

Cost: 75 bits

Run (Dramatic Music) Play a sound effect “Run” followed by dramatic music

Cost: 100 bits

Crab Rave Play a sound effect Crab Rave Music

Cost: 100 bits

3.7.2 What do they do?

They are a way for you to interact with eachother and have a precense in the stream itself. You can duel eachother, play cards to try and increase your Phatcoin and play in minigames we periodically spawn. At times stars will spawn that if you are able to catch will give you an extra **1000 Phatcoin**

3.7.3 What type of Minigames

There are Boss battles where you need strategy to beat and the stream working together, battle in teams against eachother in Basketball. Win these events and gain bonus Phatcoin

Check out the Commands documentation for more details

3.7.4 List of Avatars

Free

- **Aurora**
- **bluemon**
- **Crewmate**
- **Mustang**

2500 Phatcoin

- **Goose**
- **Slime**

Working on it. This is suddenly a very big list.

3.8 Discord Permissions

Subscribers have additional permissions in the [Discord](#) that I wanted to make known

3.8.1 Stream Voice Permissions

Subscribers have the ability to join the Stream Voice Channel when I am in there! You are welcome to join!

3.8.2 Subscriber Chat Permissions

There are some rooms in Discord just for Subscribers! Help me pick games or plan team games you can take part in!

3.9 Subwall

3.9.1 What is the Subwall?

Located behind me on Camera I have what has been dubbed the **Subwall**. The names of subscribers to the channel get a custom designed and 3D printed name plate that is designed to clip in right off the print bed.

3.9.2 How Do I Get on The Subwall?

Have an active subscription and you're name goes on the wall! Gift sub, Prime Sub, Tier Sub it doesn't matter! For as long as your sub is active you're name will be on the wall.

3.9.3 Do I Get to Pick The Colour?

Yes! The Nameplate is designed when the sub happens or when they are next in chat in the case of a Gift Sub when someone isn't there. While doing the modeling you will get to pick the colour it will be from the colour options I have on had at the time.

This supply of filament and range of colours changes so not all colours are available all the time. If you really want a particular colour your Nameplate will generated and awaiting printing until I get that colour again.

3.9.4 Do Nameplates Come Down?

Yes, once every month or 2 I will go through the subscriber list and any expired subs will come down and be stored.

3.9.5 How Do I Move Up The Wall?

The longer your Sub Streak the higher up the wall you move.

3.10 Bit Commands

All bits cheered in the stream will get as many bits used in Phatcoin

3.10.1 Sound Effects

10 bits Play a sound clip of my niece yelling

11 bits Play a sound clip of my niece yelling

12 bits Play a sound clip of my niece yelling

13 bits Play a sound clip of my niece yelling

15 bits Play a sound clip of my niece doing her best Owen Wilson "Wow"

16 bits Play a sound clip of my niece pretending to be an alarm

17 bits Play a sound clip of my niece asking "What?"

18 bits Play a sound clip of my niece asking "What?"

19 bits Play a sound clip of my niece asking "What?"

20 bits Play a sound clip of Skye saying “OMG IT’S TOADNY STARK!*

22 bits Play a sound clip of Nation saying “OMG IT’S TONY STARK!”

!socials Get links to my socials

!song Get the Title and Artist of the song currently playing in stream

!subwall Zoom into the Subwall and let others know about the Subwall

!treat Get a link to my TreatStream if you want to get me some food

!uptime How long has the stream been running for

!wife Shout out for the Wiphe

3.12.2 Emotes

!30k Sends many **p3230k** for when the server dies

!hype Sends many **p32Hype** to get HYPED

!lurk Let the chat know you're lurking with a **p32Lurk**

!o7 Sends many **p32O7** to salute

!rip Sends many **p32RIP** when I eventually have a RIP moment

3.12.3 Multistream

!copilot Get the link for watching Skye and I when we stream couples streams

!manics Get the link for watching all the streamers in Chaos Tuesdays

3.12.4 Phatcoin

!rank Displays your rank and amount of Phatcoin

!phatcoin Displays the amount of Phatcoin you current have

!phatcoin give @Viewer X Give some of your Phatcoin to someone else in the chat

```
!phatcoin give @Phat32 10
```

!tickets X Get tickets for any active giveaway

Phatcoin cost: 1000 per ticket

```
!tickets 20
```

3.12.5 Stream Avatars

!8ball Ask the Magic 8ball

!duel @Viewer Battle against another viewer, you can also but Phatcoin on the line on who will win the duel

```
!duel @Phat32
```

```
!duel @Phat32 200
```

!fightme Have PhatBot issue you a challenge to fight

Phatcoin cost: 10

!slots X Play the slots and try to get more Phatcoin

Phatcoin cost: X

```
!slots 500
```

!bet X [blue/pink] Spin the roulette to try and win more Phatcoin

Phatcoin cost: X

```
!bet 500 blue
```

3.12.6 Why?!

!ad Play an ad on stream automatically

Phatcoin cost: 100

!nospeak Time yourself out for 2 minutes

Phatcoin cost: 200

3.13 Game Commands

Different commands that come into play when playing specific games

3.13.1 Beat Saber

!bsr X Request a song for me to play. Best used when going to [Beat Saver](#) and copying the command / ID from there

Phatcoin cost: 0

```
!bsr 12abf
```

3.13.2 Satisfactory

!mods Get a list of the mods I am currently using

Phatcoin cost: 0

3.13.3 Star Citizen

!enlist Get my Star Citizen referral link

Phatcoin cost: 0

!fleet Get a link to my fleet

Phatcoin cost: 0

!hcs Get a link to HCS Voice Packs, addon for VoiceAttack that runs my voice commands
